

Model 170R[™]

Ratcheted Trigger Sprayer

TRIGGER SPRAYERS

- Engineered not to leak if bottle tips over
- Contemporary, low profile design reduces overall product height to save on packaging and ratcheted neck prevents trigger from backing off in transit when used with appropriate bottles
- Greater output per stroke significantly reduces the number of times you pull the trigger
- Ideally priced for packaging opportunities

110170 White
9.5" Dip Tube, 1.5mL Output, 28/410 Thread
